## SHAREHOLDER HIGHLIGHTS SPRING 2007

### *IN THIS ISSUE:*

- BI Capture™ inventor Gregory Abowd honored with prestigious computer science social award
- TalkAutism featured on CNN.com
- BI Capture™ Home version goes commercial!
- Clinical Champion User Group held in Boston
- NICHD begins funding for BI Capture™ development

## SPRING 2007 SHAREHOLDER HIGHLIGHTS

### **Dr. Gregory Abowd honored with prestigious social award**

ACM SIGCHI, the Association for Computing Machinery's Special Interest Group on Computer-Human Interaction, has awarded the inventor of BI Capture™ with the 2007 Social Impact Award. Dr. Gregory Abowd is being recognized for his outstanding promotion of the application of human-computer interaction research to pressing social needs. CT is invited to take part in a special Autism Special Interest Group promoted by IEEE, a forum to connect CT with the Inventor of the Mouse (Doug Engelbart) and other Silicon Valley visionaries, and a visit to world-renowned MIND Institute to share CT's technology solutions. *More info:* <<http://sigchi.org/documents/awards/>>

### **TalkAutism featured on CNN.com via Larry King Live**

The homepage of Larry King Live, a part of CNN.com, linked to TalkAutism.org as a pre-eminent autism resource for families and professionals. This was in connection with a special Larry King Live show focused on autism, featuring Bill Cosby, Toni Braxton, and others; the show aired on Wednesday, March 21.

### **BI Capture™ Home version goes commercial!**

The Home version of BI Capture™ has been released from beta and is now officially a finished product! Interest continues to be strong as further sales are realized and the development now shifts to an iterative mode, as all major features and functionality are in place.

### **Clinical Champion User Group held in Boston**

Key team members met in Boston on the weekend of February 2-4<sup>th</sup> along with the respected "clinical champion" Dr. Jim Ball of New Jersey. This meeting kicked off the Phase II SBIR (Small Business Innovation Research) study funded by the NICHD (National Institutes of Health' Institute of Child Health and Human Development).

### **NICHD begins funding for BI Capture™ development**

The National Institutes of Health' Institute of Child Health and Human Development has been funding on the \$1.05 MM grant it approved late last year. The funds, which will be paid out as a federal gift over the next two years, will go directly to corporate expenses, research, and product development.
